

BONALDO

CONTRAST BED

design Alain Gilles - 2013

A customisable and modern restyling of the classic fabric bed. An essential element of the bed is the significantly sized headboard, which represents a functional and artistic element at the same time. Contrast Bed is a double bed with frame made of metal painted in anthracite grey, white or amaranth. The headboard is padded and covered with fabric or leather. The variant Contrast Bed ego features a quilted headboard. The bed can be accessorised with metal bedside tables.

COVER:

fabric
leather

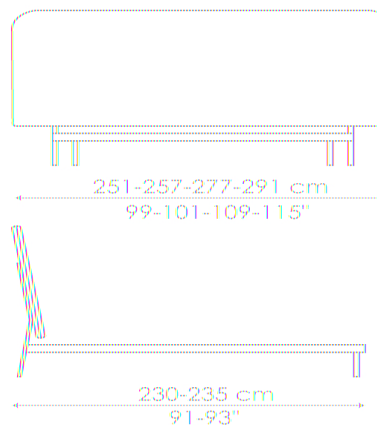

FRAME:

matt anthracite grey painted metal
matt white painted metal
matt amaranth painted metal
