

PATCHWORK by Rafa García, 2011

SANCAL

EXPLICACION DEL MODELO

Los paneles Patchwork suponen un cambio de perspectiva. En lugar de la tradicional colcha de retales (de patchwork), la idea es trasladar ese rico mosaico de formas, texturas y colores del colchón a la pared, a modo de cabezal.

Patchwork consta de 4 paneles tapizados. Cada panel se inserta fácilmente en una ligera barra de aluminio y es posible colocarlo en distintas posiciones. Dependiendo de la orientación de las piezas obtendremos composiciones más sobrias y serenas o más irregulares y sugerentes.

Para simplificar la elección de los paneles, hemos creado una serie de composiciones predefinidas. Cada una de estas composiciones permite a su vez distintas colocaciones de los paneles.

Opcionalmente podemos incorporar un kit de iluminación LED. Se trata una iluminación tenue e indirecta que se propaga alrededor del perímetro del cabezal. La lámina de LEDs se adhiere a la barra de aluminio que sirve de soporte para los paneles. El interruptor se acciona mediante un sensor de aproximación, de modo que controlaremos las funciones de encendido y apagado acercando la mano a dicho sensor.

La base de la cama es completamente desenfundable. Las medidas interiores son: 90x190, 90x200, 150x190, 150x200, 160x190, 160x200, 180x190 y 180x200. El somier va incorporado.

Las patas son de haya maciza y están disponibles en 2 acabados: natural y wengué plus.

Patchwork se puede tapizar en tela, piel o piel sintética.

IMPORTANTE

La base de la cama y los paneles se sirven desmontados. Incorpora instrucciones de montaje.

Por favor, especifique claramente en el pedido los tejidos seleccionados para cada uno de los paneles solicitados. Para la base, indique el tejido y el color de las patas (natural o wengué plus).

DESCRIPTION OF THE MODEL

Patchwork panels represent a shift of perspective. Inspired by the traditional patchwork quilt, the idea is to bring this rich mosaic of shapes, textures and colours from the bedspread to the wall, as a headboard.

Patchwork consists of 4 upholstered panels. Each panel is easily inserted in a lightweight aluminium bar and one can place them in different positions. Depending on the orientation of the pieces, we can achieve a more sober and serene composition or a more irregular and exciting one.

To simplify the choice of panels, we have created a series of predefined compositions. Each of these compositions in turn allows different placements of the panels.

As an option, we can incorporate LED lighting. This is soft and indirect lighting that spreads around the perimeter of the headboard. The LED is attached to the aluminium bar that serves as support for the panels. The switch is activated by a sensor touch, so that we control the on and off functions by bringing the hand closer to the sensor.

The cover of the bed is completely removable. The inner sizes are: 90x190, 90x200, 150x190, 150x200, 160x190, 160x200, 180x190 and 180x200. The slatted bed base is included.

It has solid beech feet which are available in two finishes: natural and wengue plus.

Patchwork can be upholstered in fabric, leather or synthetic leather.

IMPORTANT

The bed base and panels are delivered disassembled. Includes assembly instructions.

Please state on the order the required fabrics for each of the panels. Please, also state the fabric for the base and the feet colour (natural or wengue-plus).

CARACTERISTIQUES

Les panneaux Patchwork supposent un changement de perspective. Au lieu d'utiliser le classique couvre-lit en patchwork, l'idée est de le transposer sur le mur en tête de lit.

Patchwork est constitué de 4 panneaux tapissés. Chaque panneau s'insère facilement dans une légère barrette en aluminium, avec la possibilité de les placer de différentes manières. Suivant l'orientation de la pièce, il est possible de réaliser une composition sobre et sereine, ou irrégulière et suggestive.

Afin de simplifier le choix des panneaux, nous avons mis au point une série de compositions prédéfinies. Chaque composition permet un choix varié de modulations.

En option, nous pouvons incorporer un kit de lumières LED. Il s'agit d'un éclairage, discret et indirect qui se propage autour du périmètre de la tête. La barrette LED s'incorpore au support en aluminium des panneaux. L'interrupteur est de type sensor, nous contrôlerons les fonctions de cet éclairage en approchant la main du dit sensor.

La base du lit est complètement déhoussable. Les mesures internes sont: 90x190, 90x200, 150x190, 150x200, 160x190, 160x200, 180x190 et 180x200. Le sommier est inclus.

Les pieds sont en hêtre massif et sont disponibles en 2 finitions: naturel et wengé plus.

Patchwork, peut être tapissé en tissu, cuir ou cuir synthétique.

IMPORTANT

La structure lit et les panneaux sont livrés démontés. Voir instructions de montage.

Veuillez indiquer clairement dans la commande, les tissus sélectionnés pour chaque panneau commandé. Pour la base, veuillez indiquer le tissu et la couleur des pieds (naturel ou wengé-plus).

PATCHWORK by Rafa García, 2011

SANCAL

CARACTERISTICAS TECNICAS

TELA

- Tapizado base cama y paneles totalmente desenfundables.

Base cama

- Estructura cama formada por tablero de partículas de 22 mm, reforzada con escuadras de metal, recubierta de espuma HR Ultracel de 30kg y fibra de 100gr con velour.
- Patas en madera de haya tintada natural o wengué plus.
- En las camas de 150, 160 y 180 de ancho se incorpora 1 barra central de refuerzo.

Somier

- Tubo acerado 40x30 gris epoxi, con tratamiento anticorrosión.
- Sistema de tacos de ensamblar las laminas de 3 en 3, con doble regulación lumbar.
- Las medidas 150, 160 y 180 incorporan doble lecho de láminas y refuerzo con barra central.

Paneles

- Panel formado por tableros de DM de 10 mm, recubiertos de espuma HR Ultracel de 30kg y fibra de 100gr con velour.
- Soporte de cabezal: guías de aluminio con enganches de sujeción para los tableros.

Leds

- Led (luz cálida) formado por 60 leds/metro con tira de adhesivo para colocar sobre la guía de aluminio.
- Interruptor con sensor de proximidad.

PIEL

- Tapizado paneles fijo, no desenfundable.
- Tapizado base cama desenfundable.
- El resto de características son idénticas a las de la versión tapizada en tela.

TECHNICAL CHARACTERISTICS

FABRIC

- Completely removable bed base and panel covers.

Bed

- Bed structure consisting of 22mm particleboard, reinforced with metal squares, covered with 30kg HR Ultracel and 100gr fibre with felt.
- Beech feet stained natural or wengue-plus.
- The beds of 150cm, 160 and 180 incorporate a reinforcing central bar.

Slatted bed base

- Steel tube 40x30 grey epoxi, with anticorrosion treatment.
- System of assembling holders for slats in 3 by 3 sets, with double lumbar regulation.
- Sizes 150, 160 and 180 incorporate double slats with reinforcing central bar.

Panels

- Panel consisting of 10mm MDF boards, covered with 30kg HR Ultracel foam and 100gr fibre felt.
- Headboard holder: aluminum rails with hooks for fastening the boards.

Leds

- LED (warm light) consisting of 60 leds/metre with adhesive strip to be placed on the aluminum rail.
- Switch with sensor touch.

LEATHER

- Fixed panels, not removable.
- Removable bed base cover.
- The remaining technical specifications are the same as those for the fabric version of the product.

CARACTERISTIQUES TECHNIQUES

TISSU

- Structure du lit et panneaux 100% déhoussable.

Structure du lit

- Panneau de particule de 22mm, renforcé par des équerre métal, recouverte de mousse HR Ultracel de 30kg et fibre de 100gr avec velours.
- Pieds bois en hêtre teinté naturel ou wengé plus.
- Les lits largeur 150 ou plus ont une barre centrale de renfort.

Sommier

- Tube acier 40x30 peinture gris époxy, avec traitement anticorrosion.
- Lattes montées sur rotules 3 par 3, avec double régulation lombaire.
- Pour les dimensions 150-160-180: sommier en 2 parties avec renfort central.

Panneaux

- Panneaux formés de plaques de médium de 10mm, recouverts de mousse HR Ultracel de 30kg et fibre de 100gr avec velours.
- Support du panneau: guides en aluminium avec supports de maintien des panneaux.

Leds

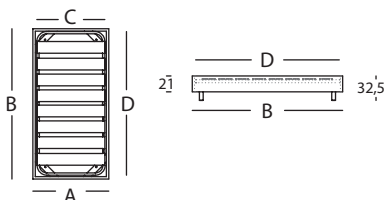

- Éclairage formé par 60 leds/mètre.
- Interrupteur sensoriel.

CUIR

- Tête de panneaux non déhoussable.
- Structure du lit 100% déhoussable.
- Le reste des caractéristiques techniques est identique à la version tissu.
