# LEOLUX

COLUMNA
DESIGN: HUGO DE RUITER, 2015

Columna

A leg and a table leaf connected by a straight column:
Columna is that pure. The only frivolity that Hugo de Ruiter
allowed himself is the way in which the column connects to
the foot, like a marble column from antiquity.

Columna from Leolux is above all a completely practical
table. Round, so it offers space for the maximum number of
guests but without bothersome table legs. Elegant too, with
a super-thin table leaf in solid walnut or oak, or lacquered in
any conceivable colour. And finally, Columna is multi-
talented thanks to its many manifestations.

Features

- Round dining room table in oak (oil or stain) or
  lacquer (all Leolux colours).
- Foot and column finished as standard in a limited
  number of epoxy colours. Any colour in Cristallo or
 Spruzza available as optional extra.
