

GENTLEMAN

MIRROR

design Carlo Colombo

2015

This collection – with a refined personality as its name would suggest – has expanded thanks to the addition of a new element.

The large full-length mirror joins and enhances the matching pieces in the collection: the bed and the sofas with double covers with piping, the chest-of-drawers, the night-stands, the writing desk, the tallboy and the cigar unit.

This elegant vertical mirror has a large frame covered in leather, with leather piping (in the same color as the frame or in a contrasting color) and is fitted with robust hooks for fixing the mirror to the wall.
