POLE

STAINLESS STEEL

Brushed hairline finished Stainless Steel, type AISI304 18/08 with 18% chromium and 8% nickel.

Wall thickness of the Stainless Steel tubes: 2mm.

OPTIONAL: we recommend the electropolishing treatment of the frame if it is to be used in a corrosive environment.

TEAK

We only use carefully selected, fully grown teak, which is harvested in accordance with the strictest environmental standards. The reason for its generally commended durability is the high levels of natural oils it contains. The resulting minimal moisture absorption prevents warping which gives it great stability. Moreover, the wood is extremely resistant to the influences of chemicals, as well as against attacks by vermin.

STAINLESS STEEL - BRUSHED
(optional electropolished)

TEAK

COVER

TEXTILE

Royal Botania fabrics have been woven from mass-coloured acrylic fibre; your guarantee of optimal water- and UV resistance, plus years of comfort.

BASE

STAINLESS STEEL

Brushed hairline finished Stainless Steel, type AISI304 18/08 with 18% chromium and 8% nickel.

Wall thickness of the Stainless Steel tubes: 2mm.

OPTIONAL: we recommend the electropolishing treatment of the frame if it is to be used in a corrosive environment.

STAINLESS STEEL - BRUSHED

STAINLESS STEEL - ELECTROPOLISHED (optional)

COATED ALUMINUM

Aluminium is a non-ferrous metal, which combines great mechanical rigidity with light weight; this makes it especially suitable for making furniture. If treated correctly it has a good resistance to corrosion. One of the treatments is powder coating. After a chemical pre-treatment an epoxy powder is applied statically and baked.

COATED ALUMINUM - WHITE

COATED ALUMINUM - CAPPUCCINO

COATED ALUMINUM - BLACK

- ☑ Stainless steel or coated aluminum cover
- ☑ Nylon wheels and detachable handle for moving around on the terrace
- ☑ Concrete weights included
