

BONALDO

PAPILLON

design Centro Design

The elegance of a butterfly's flight is evoked by the curvy, wraparound shapes of this very charming furniture. Papillon is a transformable sofa with a backrest that can be reclined until it forms a bed. The larger size of the Papillon XL version offers greater comfort while still keeping the same design and functionality characteristics. The covering is in fabric or leather. The base is available in chromed metal or silver or black painted metal.

UPHOLSTERY:

fabric
leather

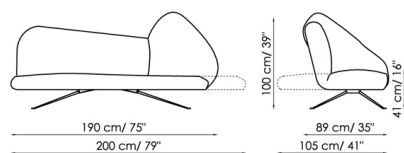

FRAME:

silver or black painted metal
chromed metal (with extra charge)

MECHANISM:

Reclining backrests. Inclining the backrests converts it into a bed.
