

# BONALDO

## BENNY

design Pier Vittorio Prevedello

A design object with an elegant and modern image and, together, a concrete solution to space requirements. Benny can be used as an armchair, chaise longue or bed thanks to a side lever that allows you to recline and adjust the backrest to various positions. The support cushion further increases the sense of comfort. The fabric covering is fully removable. The base is available in silver, anthracite grey or chrome painted metal.

UPHOLSTERY:  
fabric

BASE:  
silver, anthracite grey painted metal  
chromed metal (with extra charge)

MECHANISM:  
Partial swivel armchair. Reclining and adjustable backrest by means of a lateral lever.

Poltrona-letto  
Armchair-bed
