

SKIPPING

design Karim Rashid - 2011

To design original settings, marked by dynamic and charming atmospheres. To play a specific service function in an exciting new way.

Skipping is a swivel stool with a height-adjustable seat with a gas piston, which is seamlessly incorporated into the chromed steel or satin finish chromed frame. With polyurethane padding. The upholstery is available in skay (eco-leather), leather or emery-leather.

UPHOLSTERY:
