

BONALDO

PLINTO

design Mario Mazzer

The elegance of lightness, the practicality of an interior décor item that exploits the combination of geometric shapes to the full.

Plinto is an extending table with a square or round shape. It has a chromed steel frame and a transparent glass top. The extension, which is stored underneath the table top, swivels by 180° easily and is raised to the same level as the top, thanks to a highly practical mechanism.

TOP/EXTENSION:
transparent glass

BASE:
chrome-plated
