

## KUDO

design Mauro Lipparini

A stylish designer table, thanks to the linear geometric shapes and the harmonious material combinations. The Kudo extending table has an aluminium frame and glossy stainless steel legs. The table top is available in a broad range of materials and finishes: in black painted or black acid-treated glass, white painted or white acid-treated extra light glass, sand painted extra light glass, in dark brown painted oak or anthracite grey painted oak, in walnut, in matt white lacquered wood, or in basaltic stone. The veneered or lacquered wood side extension makes it possible to increase the length of the table top easily, while retaining ultimate stability and solidity.

### TOP/EXTENSION:

black painted glass/lacquered matt black wood  
white painted extra-light glass/lacquered matt white wood
