

BONALDO

MYTHOS

design Gino Carollo - 2012

A wise combination of materials, shapes and different cultural references, for an altogether young and modern look. The steel base of Mythos is painted matt white or anthracite grey. The square table top with rounded edges is available in black acid-treated glass or in white acid-treated extra light glass, and it is embellished by an accessory of Oriental inspiration: a swivel glass table top (Lady Susan) incorporated within the table itself, which makes dishes easily accessible to all diners.

TOP:

black acid-treated glass

white acid treated extra-light glass

BASE:

painted matt white steel

painted matt anthracite grey steel
