

# BONALDO

## CROSS

design Dondoli e Pocci

Bold silhouettes mark the domestic setting in a geometrical manner, with a clear definition of space.

Cross is an extending table with anodised aluminium legs in silver or painted matt black or white. The glass top is embellished by engraved lines and it is available in the following finishes: painted black, extra light painted white or sand. The extension, which is made of lacquered wood, is designed to increase the length of the table top easily, while retaining ultimate solidity and stability; the legs, which move sideways to fit at the ends of the top, do not get in the way of the guests' legs.

### TOP/EXTENSION:

black painted glass/lacquered matt black

white painted extra-light glass/lacquered matt white

painted sand extra-light glass/lacquered matt ivory

### LEGS:

anodized silver aluminium

matt black painted aluminium

matt white painted aluminium
