

## MARC-U

design Mauro Lipparini - 2010

The lightweight seats, which appear to be almost suspended; the pure and simple silhouettes, in pursuit of elemental comfort and elegance.

Marc-U, thanks to its well-balanced volumes, provides a wide range of composition solutions which adapt to different sized settings in a host of different styles. The upholstery covers, which are available in fabric or leather, are fully removable. The feet are in metal: chromed or painted in anthracite grey or white. The addition of cushions on the backrest further enhance the level of comfort.

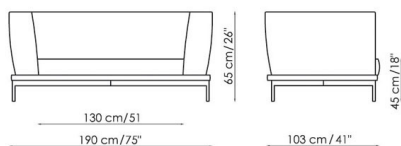

### UPHOLSTERY:

fabric  
leather

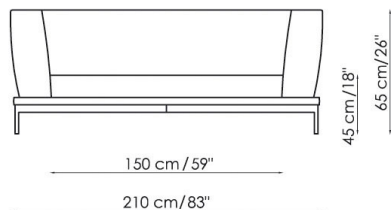

### FEET:

anthracite grey and white painted metal  
chromed metal (with extra charge)
