

GOOD MOOD

design Giuseppe Viganò - 2010

A haute couture masterpiece, crafted with artisanal skill and attention to detail.

Good Mood is a modular sofa fitted with a mechanism designed to raise the backrest to several positions, which makes for a flexible and adaptable system. Owing to the large number of modules available, bespoke solutions can be created for any setting. The fully removable upholstery covers are made of fabric or leather, and are embellished with decorative edging in a variety of colours.
