

BONALDO

CENTODUE

design CRS Bonaldo

A project which - thanks to the utmost versatility of use - aims at providing the perfect solution for the different situations we face during our everyday lives.

Centodue is a collection of single beds offering a number of different styling solutions to suit all settings. The upholstery, which is available in fabric, skay (eco-leather) or leather, is fully removable; the feet are inserted into the frame of the bed and they are adjustable. By placing another Ali Babà bed alongside it, two single beds at the same height or a double bed can be achieved.

COVER:

fabric

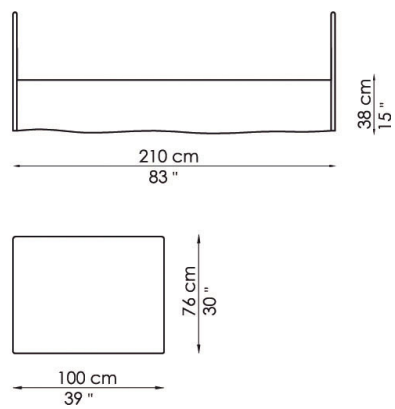

skay (eco-leather)

leather

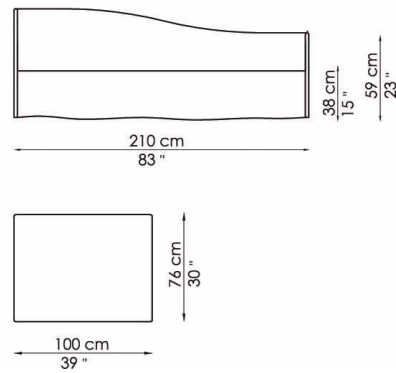

FEET:

adjustable, in plastic, inserted in the bed frame
