

COLLAGE

design Alain Gilles - 2011

The creativity of an object that is in perennial transformation, the dynamic appeal of shapes that reflect ever-changing styling and functional requirements.

Collage is an original composition of painted metal coffee tables, available in four different colour combinations. All except one of the coffee tables are connected. The round coffee table in the middle acts as a hinge for all the others, which are attached and can be positioned freely around the first. An extra coffee table (free of the others) can be positioned so as to redesign the composition.

FRAME:

- Combination 1

- a) painted mat white metal
- b) painted mat white metal
- c) painted mat white metal
- d) painted mat white metal
- e) painted mat white metal

- Combination 2

- a) painted mat amaranth metal
