

BONALDO

FUN

design Gino Carollo

The utmost freedom of composition and a dynamic game of volumes, for a totally modern design.

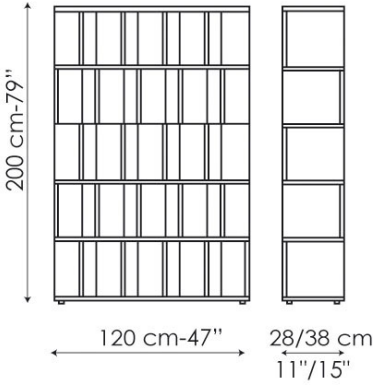

Fun is a modular side-by-side bookcase which can be wall-mounted or free-standing. Its apparently irregular layout of the storage space, in an alternation of blocks and voids, creates an original dynamic effect. Fun is lacquered matt black or white, and it is available in several sizes, in the Fun 2 and Fun 3 variants.
