

B-CUBIC

design Gino Carollo - 2010

A design idea that focuses its attention on the plastic dimension of the shapes and on the new interpretation of a traditional piece of furniture such as a bookcase. Indeed, in addition to offering convenient storage, it becomes a decorative item which is suitable even in the most confined spaces.

B-Cubic is a fixed bookcase with a mirrored base and extra light transparent or smoked black glass frame. Also available in the Cubic glass version and in the fixed or revolving versions: Cubic, Cubic 3 and Cubic 2, matt lacquered black or white.

FRAME:

smoked black glass

transparent extra-light glass

BASE:

mirror finish
