

BONALDO

BLOX

design Gino Carollo

The essential minimal appeal of the strictly geometrical shapes is emphasised by the chessboard-patterned engravings: the great charm of glass design.

Blox is a display cabinet distinguished by a corner door with side opening. It is made of glass engraved with an orthogonal pattern and it is available in the following finishes: smoked black or extra light transparent. The steel base is mirrored.

FRAME:
smoked black glass
transparent extra-light glass

BASE:
mirror-finish
