

BONALDO

XXLIGHT

design D'Urbino e Lomazzi - 2010

An object that enters our home and immediately becomes iconic due to its scenic impact.

XXLight is a lamp consisting of a white polyethylene stem and a white polycarbonate lampshade. Owing to the light source fitted, XXLight lights its surroundings and diffuses light delicately upwards.

FRAME:

white matt polyethylene

LAMPSHADE:

white polycarbonate

SUPPORTS:

glossy white painted metal
