

MARTINA

design James Brönte

An item designed for comfort, designed to give its surroundings formal sophistication and elegance.

The Martina chair has a steel frame, shrink-resistant rubber padding and elastic belts in the backrest, thanks to which excellent comfort levels can be achieved. With removable fabric, skay (eco-leather) or leather upholstery. The legs are available in the following finishes: painted glossy black, matt silver or matt anthracite grey, or chromed or satin finish chromed.

UPHOLSTERY:

fabric
skay (eco-leather)
