

BONALDO

MILLAU

design Giuseppe Viganò - 2013

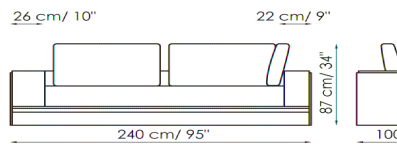

Architectural inspirations and a minimalist taste are the essence of the Millau sofa. The super-thin frame, suspended like a bridge, envelops the seat and back cushions, giving the sofa an elegant and at the same time rigorous appearance. Millau is a modular sofa designed to blend in with all settings and styles, especially thanks to the broad range of matching covers, which are in fabric or leather and are fully removable.
