

Pebble Pouf

Matthias Demacker

The openings in the frame have both a styling and a practical function, since the body of the pouf itself can house books, magazines or other everyday items. Pebble is made of polyethylene and is available in plain white or in a series of two-tone versions.

STRUCTURE in mat polyethylene in the following combinations:

white outside / white inside white

outside / anthracite grey inside white

outside / powder blue inside red

outside / white inside anthracite grey

outside / white inside powder blue

outside / white inside
