| Materials:        | Unbreakable, watertight polycarbonate   |                              |                      |
| Colors:           | Structure in transparent, white<br>Front finishes in opaline, trasparente   |                              |                      |
| Description:      | Sealed, ultra-light, slender, this fitting follows the circular shape of fluorescent lamps. Its minimal depth allows it to be fitted to ceilings or walls while appearing built-in. Metallic and trasparente finishes allow different modulations of light. |                              |                      |
