Materialien

Couhtisch quadratisch. Gestell aus Buche, Tischausschale aus Polyurethan und Platte MDF lackiert.

Dimensionen und Gewicht

Kg. 4 - m3 0,03 - 1 x box

Ausführungen

App

App is an ironic and elegant side table made up of a tray (black or white) in rigid polyurethane on 4 wooden legs. For the partial closure of the tray, there is a practical top available either in a wooden version (natural oak or lacquered) or in glass. The name of the creation and the square shape with the rounded corners of the tray take their inspiration virtually from the world of smart phone's Apps.

Moreover, the presence of a hidden cable hole makes App a very practical object to keep one's phone while charging or to support a lamp, marrying the classical function of a side table with the need to keep mobile phones within reach.
