

PH Artichoke Glass

Design:

Poul Henningsen

Concept:

The fixture provides 100% glare-free light. The 72 precisely positioned leaves form 12 unique rows of six leaves each. They illuminate the fixture, as well as emit diffused light with a unique pattern. Reflection from the light source is diffused in the sandblasted lower surfaces, and this light is reflected decoratively in the top surfaces, giving the fixture a unique glow. The surface treatment on the glass leaves eliminates direct glare. For the energy saving LED variant the quality of light and atmosphere surrounding the product is kept at the highest level.
