CIGAR STORAGE UNIT
design Carlo Colombo
2014

Cigar storage unit. The curved multilayer beech wood structure has an external layer of leather, with tone-on-tone or contrasting leather piping; the interior surface is ebony with a matte finish. The top is also in ebony. Upper compartment in Spanish cedar wood used for storing the cigars, cigars trays and humidifier drawer in solid Spanish cedar wood, fitted with humidity sensor to ensure the correct storage conditions. Inner battery-powered spotlight. Door in tempered bronze glass with aluminium frame, grey lacquered. Lower compartment with leather doors and handles.
