

# VIC 656

DESIGN:  
PATRICK NORGUET

The elegance and the minimal outline of Vic chair draws inspiration from classic mid-century chairs. The style of the chair has been modernised using advanced technology: the backrest with sinuous shapes lifts up from the seat while remaining tied only at the ends. The resulting opening provides Vic with design lightness and eases the handling. The soft seat with polyurethane foam padding is supported by elastic belts, for absolute comfort. The legs are available either in solid ash wood with a plastic carter under the seat, or in tubular steel, joined seamlessly with the carter, which can be upholstered to match the seat. The seat and backrest can be upholstered in leather or fabric for a high grade of customization.
