The concept of Sun is inspired by the early hours dawn, when the light of the sun plays along the horizon as it begins to appear. Each of Sun's different materials reflects the light in its own way, much as what happens at the exact moment when the night's darkness gives way to the light.

Sun 26
LED 13,8W 700mA 2700K
1890lm (included)

Sun 40
LED 25,9W 700mA 2700K
3688lm (included)

Sun 60
LED 33,6W 700mA 2700K
5176lm (included)
