

MARA

DESIGN: CHRISTIAN WERNER, 2016

~ APPEALING SELECTION FOR CONTEMPORARY ENJOYMENT ~

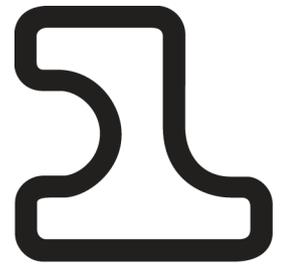

Mara

You recognise Mara's welcoming softness as soon as you admire her beauty from afar. This dining room armchair is unmistakably a Christian Werner design: the rounded seat, the slight nonchalance of the upholstery, the refined finishing. To ensure that Mara can fit into many contemporary interiors, Werner created different bases: solid oak legs (Palo) combine beautifully with the oak tables in the Leolux collection. The versions with the steel wire base (outline), a curved leg (cruz) or a base on wheels (twist) give a streamlined feel.

Mara by Leolux. Dining in style, in an armchair that embraces and entices you.

Features

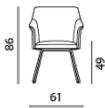

- Dining armchair with a choice of different bases: Palo (oak legs) Outline (trapezium-shaped frame), Cruz (curved leg) and Twist (Cruz with wheels, without turning point).
- Palo is available in all stain and oil colours. Outline comes standard in chrome, optionally in all lacquer and epoxy colours. Cruz and Twist come standard in all epoxy colours, optionally in all lacquers.
