

BONALDO

Blend bed

Designer: Giuseppe Viganò

Blend bed: a strong and distinctive item. A headboard that plays on the combined design of an emery leather part and the softness of the cushioning. The composure of the structure adds value to the upholstered part, creating a rigorous line that widens upwards from the bottom, merging with the welcoming padded headrest, consisting of two big cushions. The

overall effect is of a solution characterised by an elegant image and a soft composure. The leather structure is an important aesthetic feature, a sort of frame that uses research into materials to create shapes that share a contemporary, elegant, dynamic, welcoming and soft feel.
