

BONALDO

Slot

Designer: Giuseppe Viganò

Slot embodies the extensive formal and technological research that has always underpinned Bonaldo's products. For this collection, designer Giuseppe Viganò draws inspiration from the world of geometry, from which he borrows different shapes and harmonizes them in a single design. The collection plays with minimal shapes articulated in space: the horizontal top is supported by two stands with a characteristic H shape, one vertical

and one slanted, united by a transverse element that conveys a sensation of movement. The legs and central stem are made of metal, while the top with rounded corners is available in numerous finishes, from wood to ceramic, marble and crystal, creating combinations of materials that are always different and can respond to any furnishing and style requirement.
