Kaos

Designer: Mauro Lipparini

The Kaos bookshelves, designed by Mauro Lipparini, stem from the minimalist design marked by pure simplicity. Devoid of decorative elements, Kaos frames empty spaces to be filled with books and objects to create a special, intimate place in which to express your personality. The aluminium shelves are supported by metal uprights featuring small holes,

thus allowing you to position the shelves at different heights. That way, it is possible to have aligned or staggered shelves. Kaos is available in different size modules which can be joined together to create numerous combinations.
